

CRACING - PRESENTS

# CR/92 DESIRE HD

ROM Upgrade for HTC LEO

## ROM Upgrade Introduction

This ROM upgrade offers maximum performance than you ever thought possible with your HD2. All-new look, stylish graphical visualizations, complete finger friendly, enhanced applications and what else... Some design features of this upgrade are far better experienced than can be explained in mere words.

### *Immerse yourself -*

You might not even notice you have a phone. When you're watching a video, you'll think it's a TV. When you're working, you'll think it's a computer. When you're surfing the Web, you'll miss your bus.

### *Keep up with people and friends -*

See all your conversations with someone from calls and e-mails to text messages and Facebook status updates all together, all in one place.

### *Make your home your own -*

Change your home screen to create the perfect phone for you, with your apps and interests right on top. Know the time and weather, wherever. No matter what time zone you turn up in, the HTC Sense™ keeps you on schedule and a step ahead of the weather.

### *Take the easy route -*

With Google Maps™, getting there gets a whole lot easier. Launch the app for instant turn-by-turn directions, live traffic updates, alternate routes and more.

### *Do everything faster -*

With Qualcomm's 1GHz Snapdragon™ latest processor and well-tuned upgrade, speeds up everything from playing games to watching shows to opening files from work. You can do it all, a whole lot faster.

### *Incredible Performance Delivered!*

## ROM Upgrade Terms and Conditions

Please read the following terms and conditions carefully before accessing or using the ROM upgrade(s). They apply to the ROM upgrade 'CR192 DESIRE HD' and any ROM upgrades developed and provided by CRACING.

BY ACCEPTING DELIVERY OF THE ROM UPGRADE(S), YOU (HEREINAFTER "USER" OR "YOU") ARE AGREEING TO BE BOUND BY THE FOLLOWING TERMS AND CONDITIONS. CRACING IS WILLING TO PROVIDE THE ROM UPGRADE(S) AVAILABLE TO YOU ONLY UPON THE CONDITION THAT YOU ACCEPT THE FOLLOWING TERMS AND CONDITIONS. IF YOU DO NOT ACCEPT THEM, DO NOT USE THE ROM UPGRADE(S).

You agree to use the ROM upgrade(s) for personal use only and will not engage or attempt to engage in any commercial or improper uses including:

- Violating the terms and conditions of the ROM upgrade(s);
- Copying, disassemble, reverse engineer, reproducing, distributing or publishing any part or the whole of the ROM upgrade(s) without CRACING consents;
- Causing damage directly or indirectly to CRACING or its supporters (including developers, friends, donors, users and etc.), XDA-Developers or its members (including admins, moderators, senior and junior members and etc.) or any others related the ROM upgrade(s);

IN NO EVENT SHALL CRACING OR ITS SUPPORTERS (INCLUDING DEVELOPERS, FRIENDS, DONORS, USERS AND ETC.), XDA-DEVELOPERS OR ITS MEMBERS (INCLUDING ADMINS, MODERATORS, SENIOR AND JUNIOR MEMBERS AND ETC.) OR ANY OTHERS RELATED TO THE ROM UPGRADE(S) BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR ANY DAMAGES OF ANY KIND (INCLUDING LOSS OF USE, PRODUCT, DATA, PROFITS, OR THE LIKE; OR BUSINESS INTERRUPTION) OR ARISING FROM OUT OF OR IN CONNECTION WITH THE ROM UPGRADE(S) OR THIRD-PARTY SOFTWARES.

Third-party softwares included in the ROM upgrades is subject to separate terms and conditions included with, or contained in such Third-party software.

## ROM Updating Notes

- This ROM upgrade is only designed for T-Mobile HD2 aka LEO 1024 and compatible with HTC HD2 aka LEO 512
- DON'T ATTEMPT TO USE OR FLASH ON THE DEVICE(S) OTHER THEN SPECIFIED ABOVE.
- Please check out XDA-Developers wiki for more info about HTC LEO. Click [here](#)
- By flashing this ROM upgrade, your HD2 may not extended or void warranty, so it's your own risk and responsibilities.
- RUU supports all Windows platforms.
- Before you flash, make sure your HD2 is CID unlocked aka HardSPL.
- Before you flash, make sure your HD2 has at least 50% battery power.
- Before you flash, make sure you have taken backup of all your important data(s) on your HD2 including contacts, tasks, messages, emails and etc.
- Before you flash, make sure you have disabled screen saver, power saving and the like on your PC.
- Before you flash, make sure your PC has battery backup provided for safety propose. At least for 20 mins.
- Before you flash, close all the running softwares on your PC. Soft reboot the PC is recommended before flashing.
- While flashing, DO NOT start another process.
- While flashing, DO NOT minimize the RUU window. Let it stay in the foreground.
- While flashing, DO NOT interact or use your HD2, unless instructed to do so.
- While flashing, DO NOT remove the USB sync cable from PDA, unless instructed to do so.
- UC Compatible is already supported in all the ROM upgrades. Click [here](#) for more info.
- After flashing and booting successfully, make a soft reboot. Hard reboot is recommended.
- On the first boot, start menu may take some time to open. Please give it some time before to start using your HD2. It should be fine on 2nd boot and so on.
- Before you flash any radio versions, make sure they are fully supported to your device Radios are more likely to brick devices if not compatible.
- This ROM upgrade doesn't include radio aka GSM, IPL, SPL or etc. except OS and splash screen.

Please visit [this](#) thread for more detailed ROM Flashing Guides.

## UC .NET Quick Start Notes

1. Create following folders on your storage card

- XDA\_UC
- XDA\_UC\Manual
- XDA\_UC\Copy2Root
- XDA\_UC\Run
- XDA\_UC\Execute

"XDA\_UC" is a place for all .cab, .reg, .mscr, .cer files that should be automatically installed to device.

"Manual" is a place for all cab files you want install in usual "visible" mode with all questions.

"Copy2Root" is a place for all files and folders that should be automatically copied to device.

"Run" is a place for you self-extracting archives.

"Execute" is a place for you self-extracting archives if you want to continue customization while them working.

2. Run XDA\_UC\_NET and press customize button\*.

\*Make sure XDA\_UC in Storage Card is selected as XDA\_UC folder before you run the customizations.

Click [here](#) for more details about XDA\_UC\_NET.
